SUPER STREET MUFFLER STATEMENT

The Coonawarra Dragway runs events under the rules of the Australian National Drag Racing Association and reaffirms the need for mufflers in Super Street Eliminator. The current rule states:

“All vehicles in Super Street eliminator and all vehicles fitted with rotary engines not using turbochargers are required to use effective commercially manufactured mufflers limiting noise levels to a maximum 98 dba measured at 30 meters.”

All competitors wishing to enter Super Street Eliminator must observe this and all other rules pertaining to this class of racing. For further information, contact the Australian National Drag Racing Association (ANDRA)
